Catholic Church
Insurance

AHISA_{LTD}

Thank you: Principals

“Want something done? Give it to a busy person!”

Participation Rates

2016 best year ever, N=**3307** (~30%)

including **>700 new principals**, some incomplete

5247 Individuals now in the database (~50%)

Demographics

68.4% Principals, 27.6% Deputies/Assistants

59% Primary

26.1% Secondary

13.8% Kinder/Primary – Year12

58% Female; 42% Male

Age 54.58 Range 25 – 80 years

73.7% Government

14.7% Catholic

11.5% Independent

<i>State</i>	<i>N</i>	<i>% of Sample</i>
NT	156	3.1
NSW	1080	21.2
VIC	1535	30.2
QLD	921	18.1
SA	502	9.9
WA	651	12.8
TAS	128	2.5
ACT	109	2.1
ACT 2016	62/150	(41.3%)

Working Hours

55% worked upwards of **51-56** hours per week during term

27% working upwards of **61-65** hours per week.

22% work upwards of **25** hours per week in holidays

Working >10 hours a day led 60% increased risk of cardiovascular disease

10% working 50–60 hours a week report relationship problems, and

30% for those working more than 60 hours.

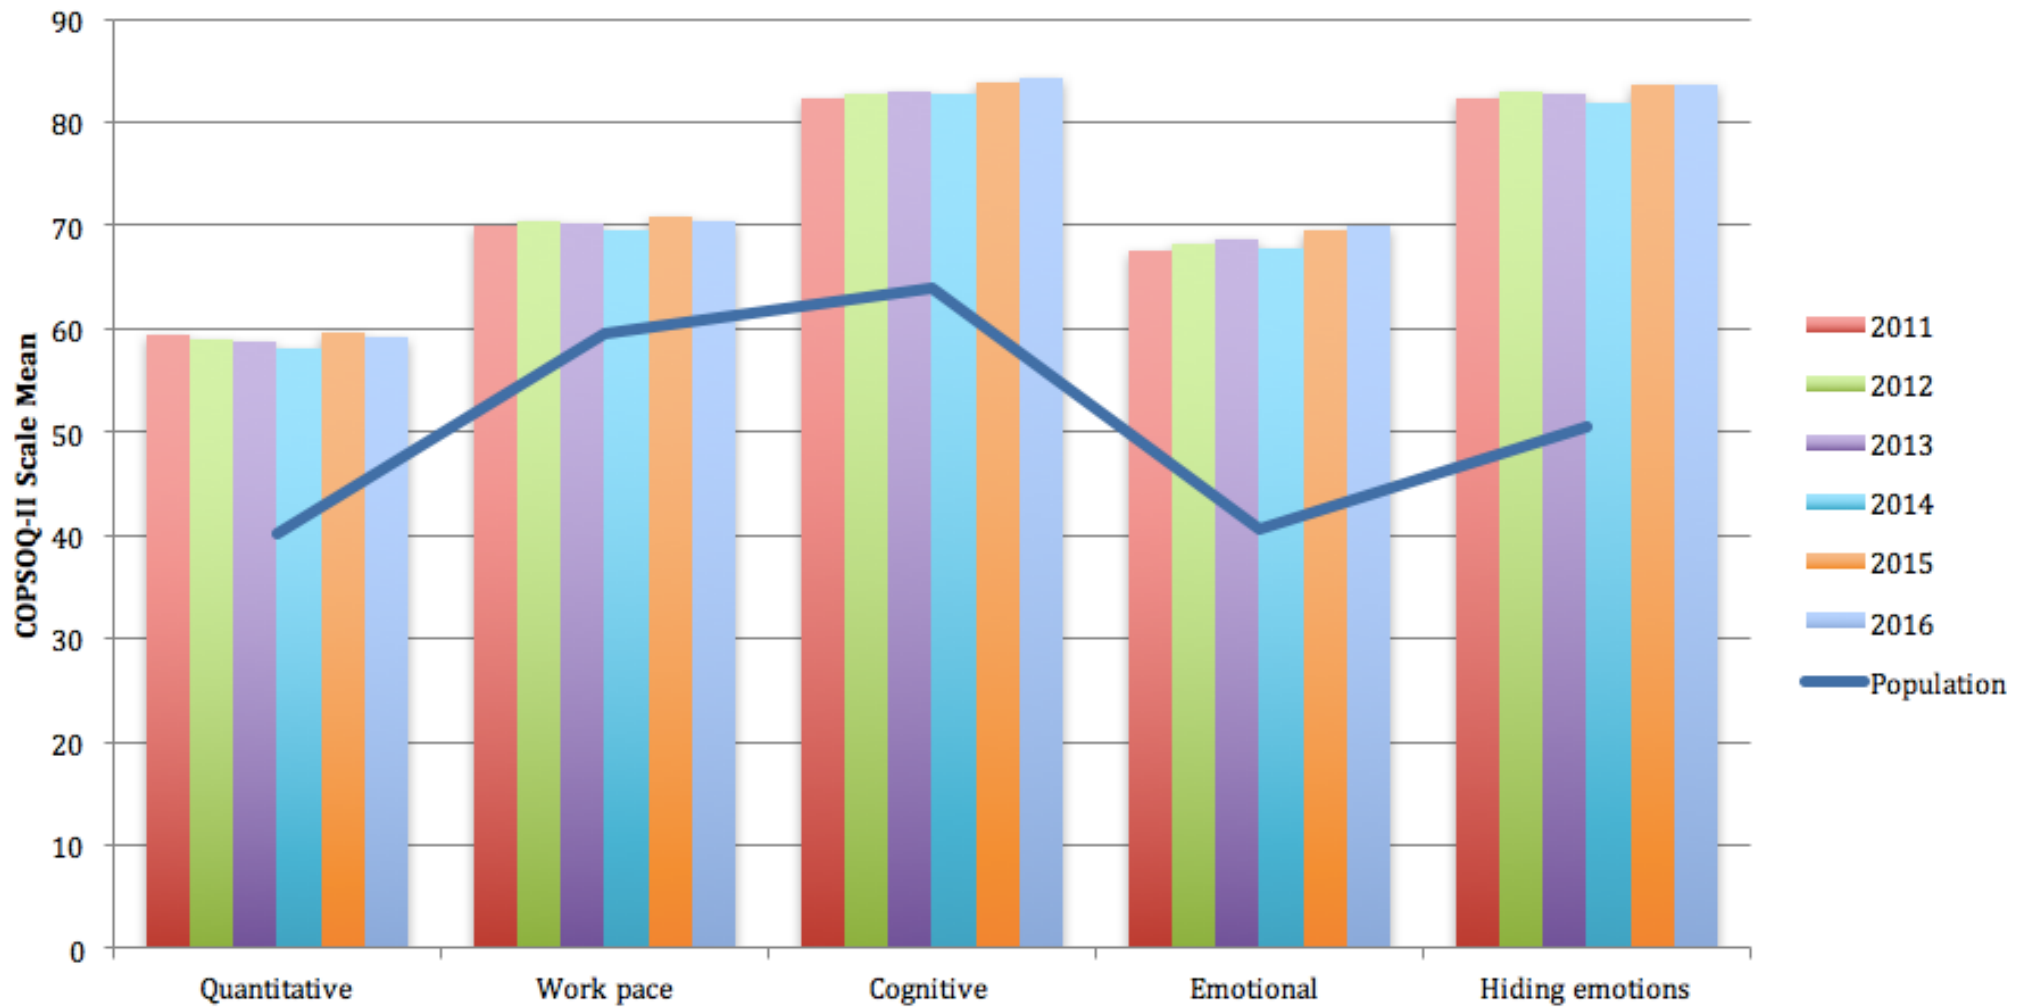

Working >40 hours per week is associated with

1. increased alcohol and tobacco consumption
2. unhealthy weight gain in men
3. depression in women

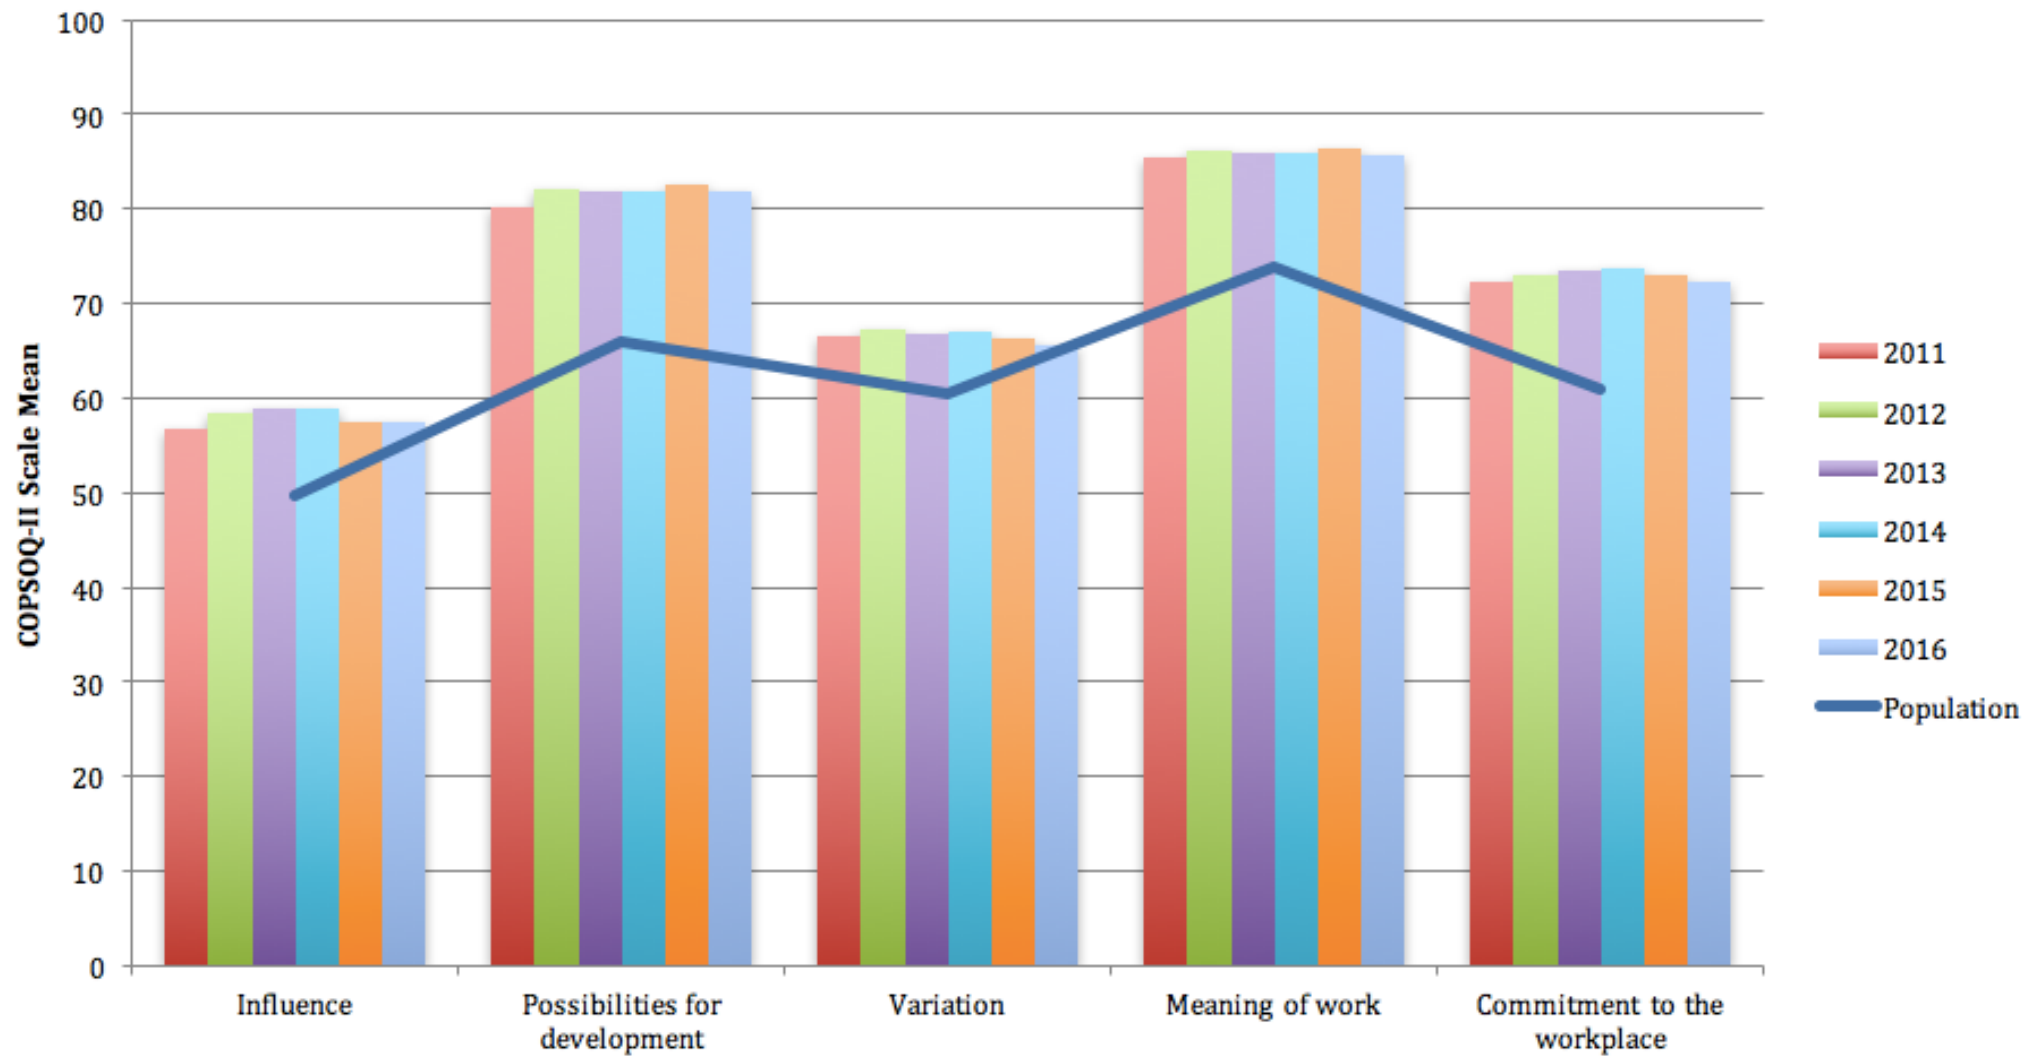

Little productive work occurs after 50 hours per week. In white collar jobs, productivity declines by ~25% when workers put in 60 hours or more.

US Dept of Health (Caruso, Hitchcock, Dick, Russo, & Schmit, 2004).

Demands at Work 2011-16

Work Organisation & Job Contents 2011-2016

Interpersonal Relations & Leadership 2011-2016

Work - Individual Interface 2011-2016

Values at the Workplace 2011-2016

Health & Wellbeing 2011-2016

Assessment of Quality of Life-8D 2011-2016

Red Flags

'Red flag' responses (thoughts of self-harm and/or global quality of life scores >2 Standard Deviations below the mean score for principals) has remained relatively stable at 9-10% of respondents. This result is a serious concern for the profession, employers and all key stakeholders

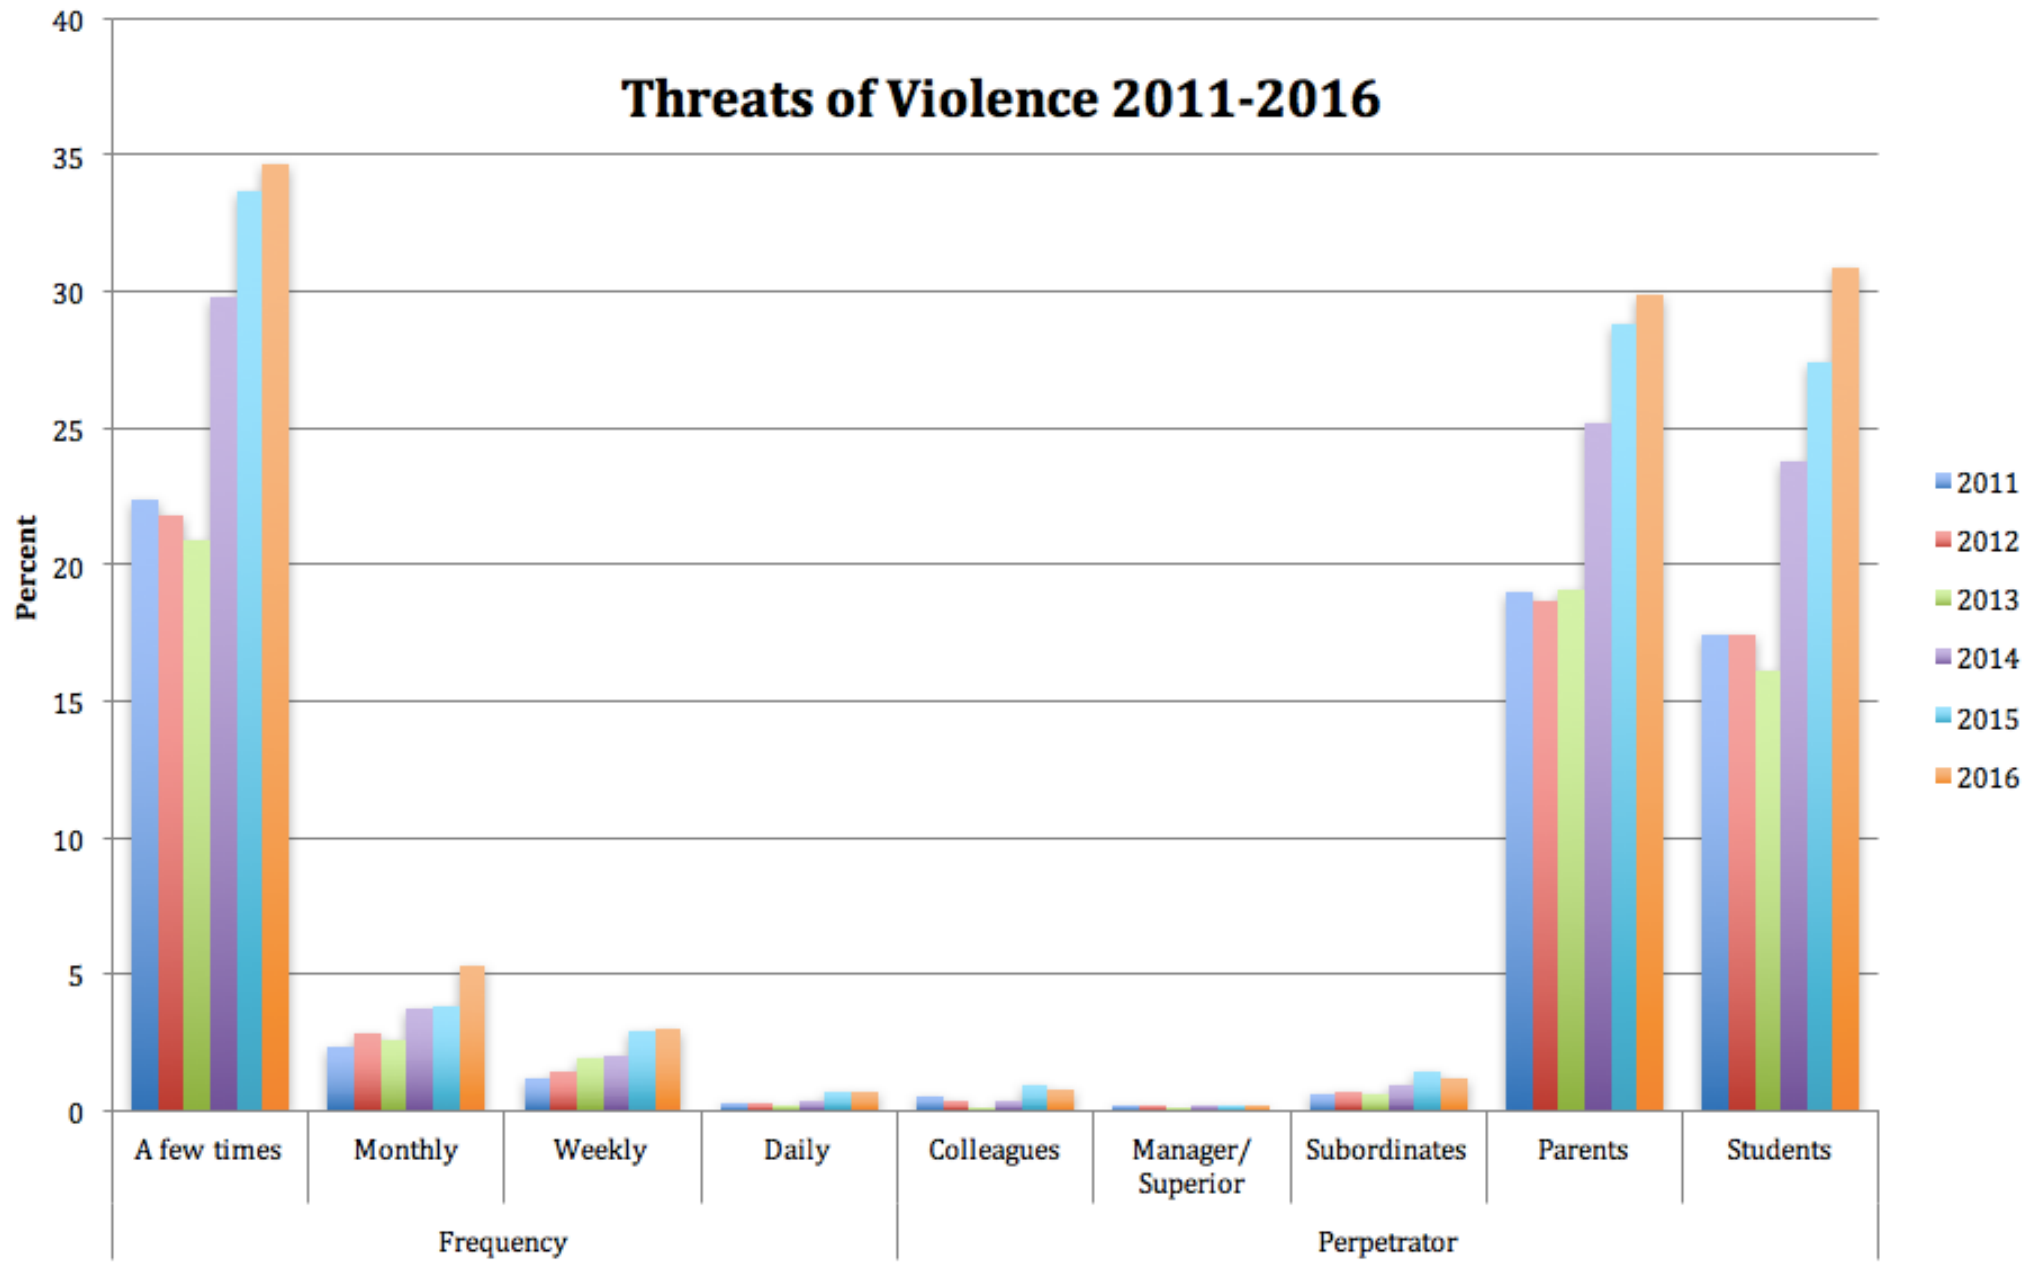

Principals' Experiences of Offensive Behaviour 2011-2016

Threats of Violence Prevalence 2011-2016

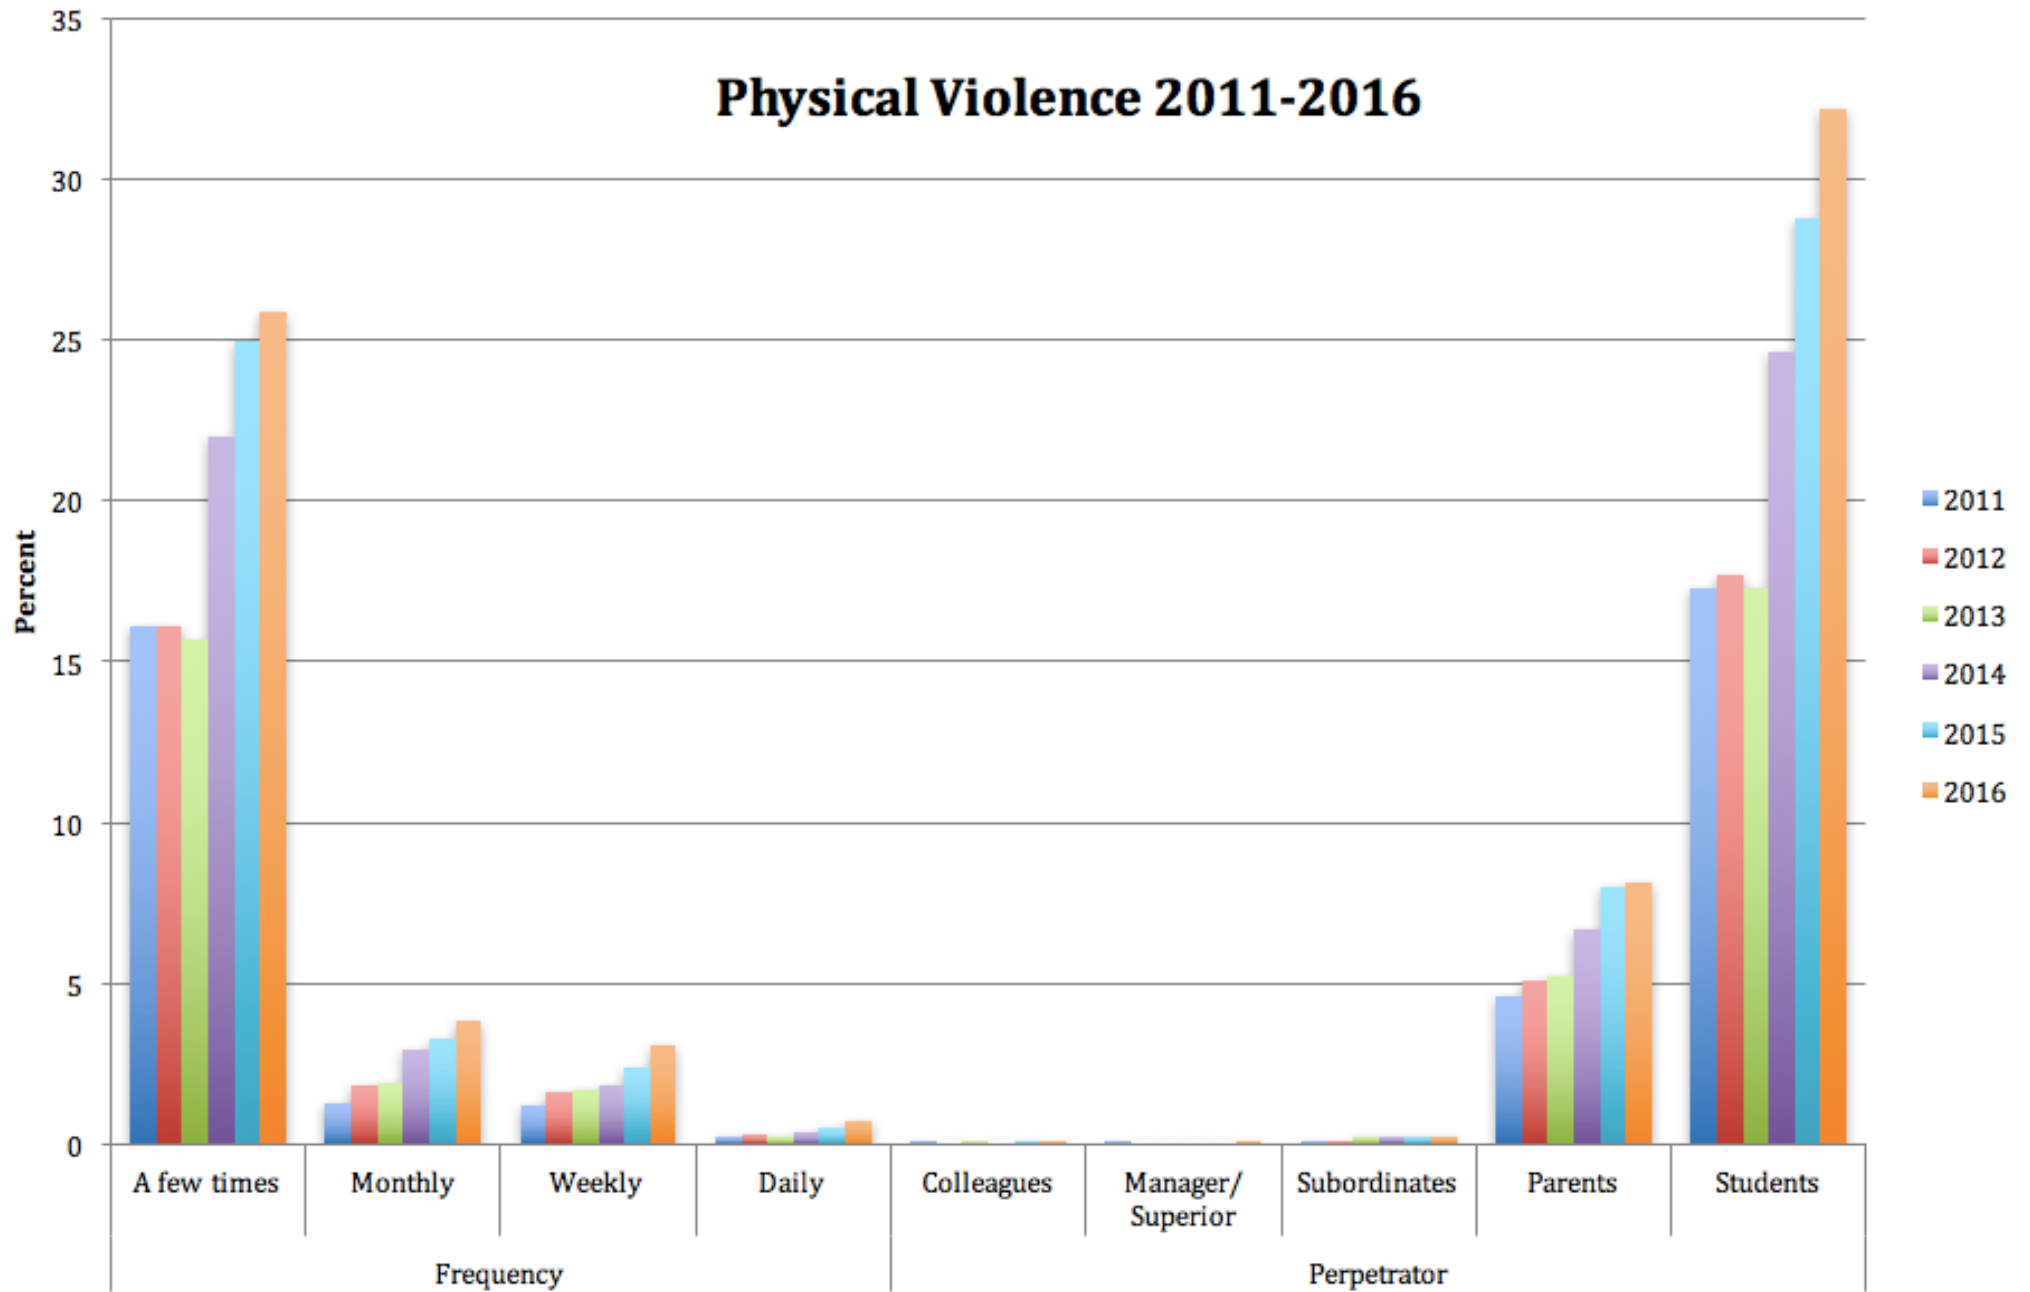

Threats of Violence 2011-2016

Physical Violence Prevalence 2011-2016

Physical Violence 2011-2016

Bullying Prevalence 2011-2016

Dualistic Model of Passion

Harmonious Passion – strong desire to freely engage in activity, autonomous internalization of the passion into identity.

Obsessive Passion – an uncontrollable urge to partake in the passion resulting from controlled internalization into identity.

Increasing **demands** in the absence of sufficient resources leads to obsessive passion leads to burnout, undermines engagement.

Conversely, **resources** in the absence of demands facilitates harmonious passion, prevents burnout, facilitates engagement.

Harmonious $\sim 4.1/7$

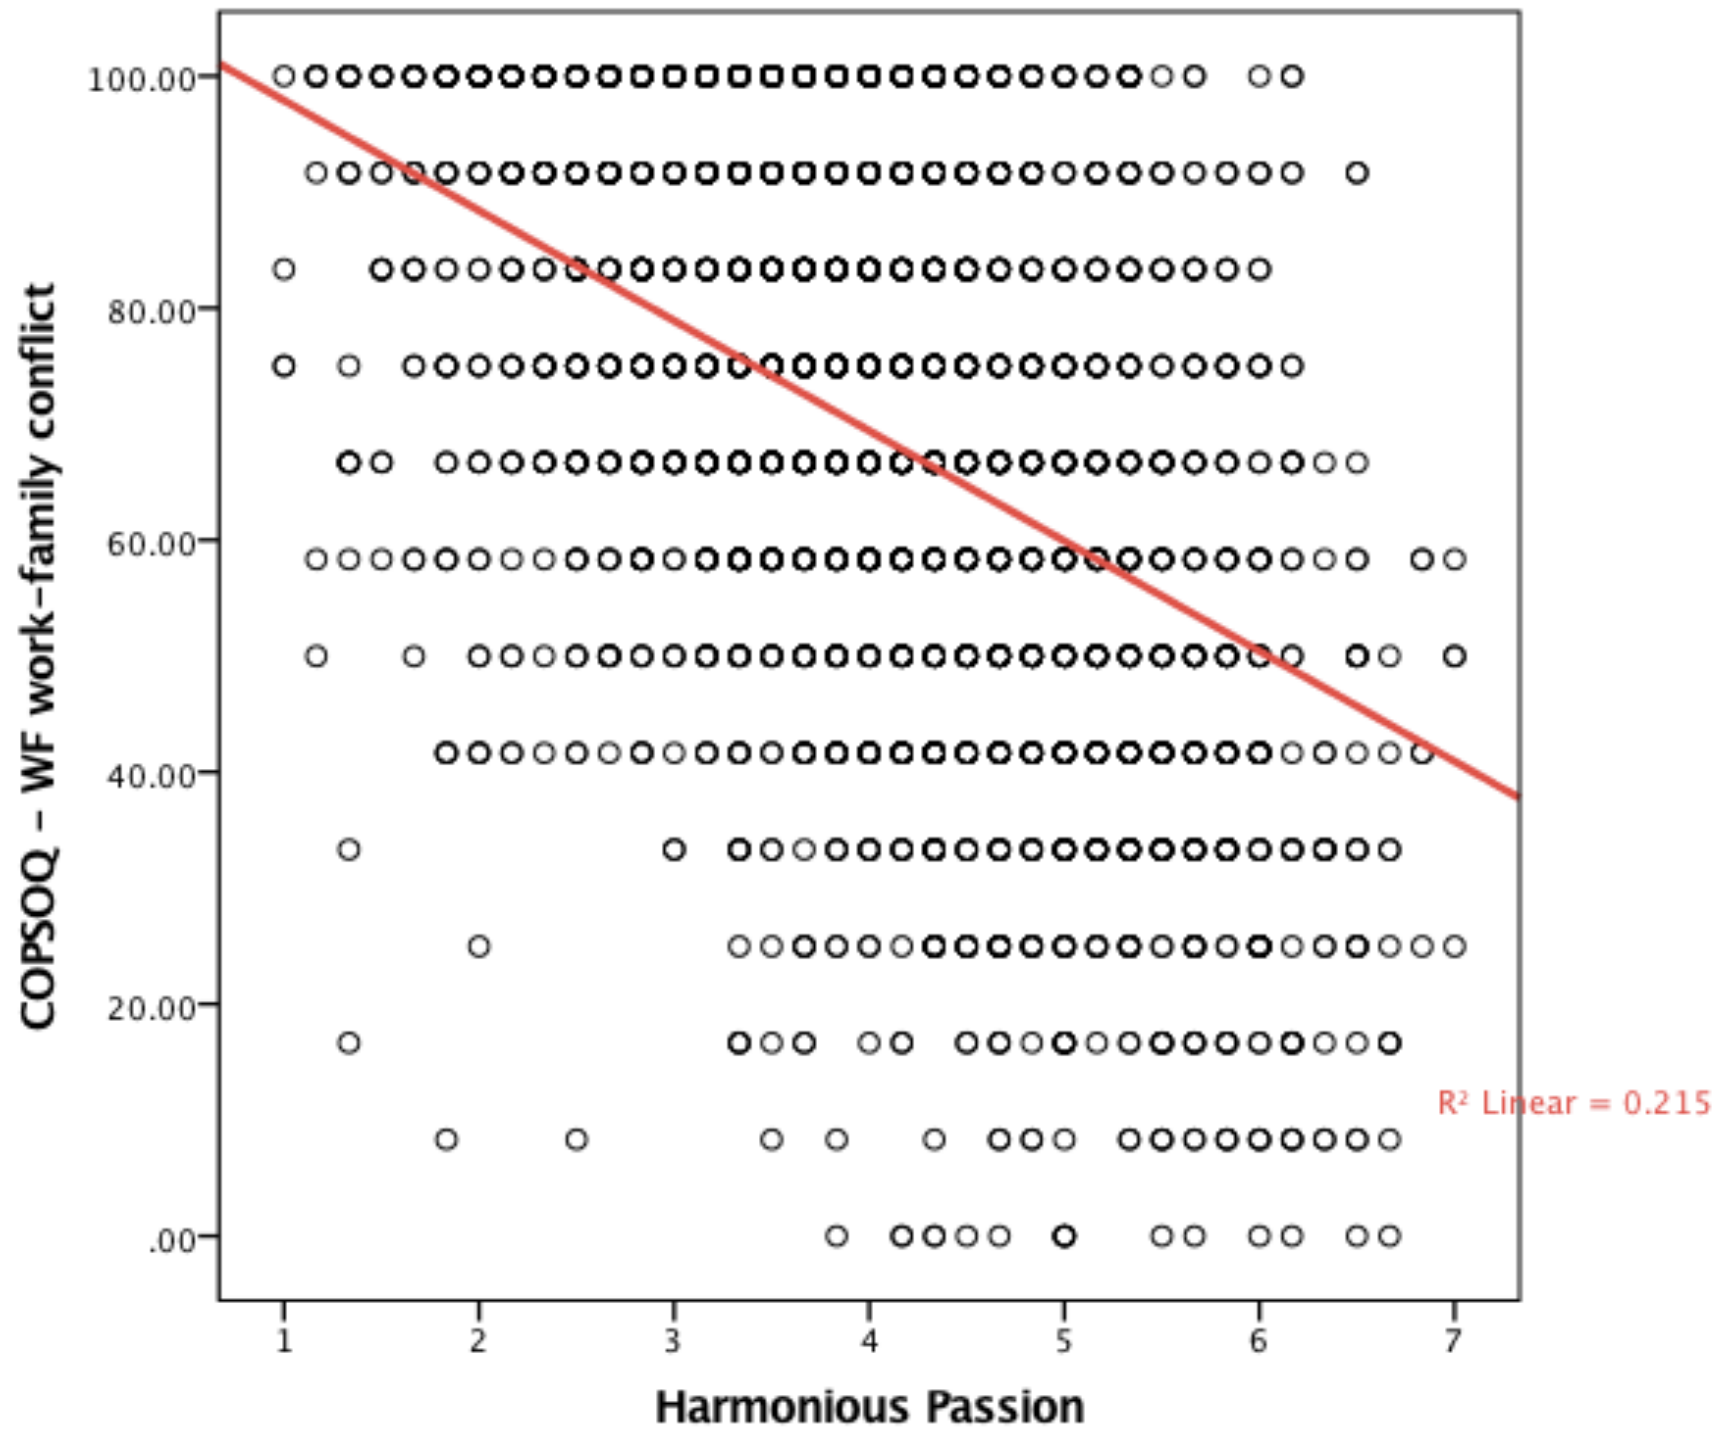

Obsessive $\sim 2.8/7$

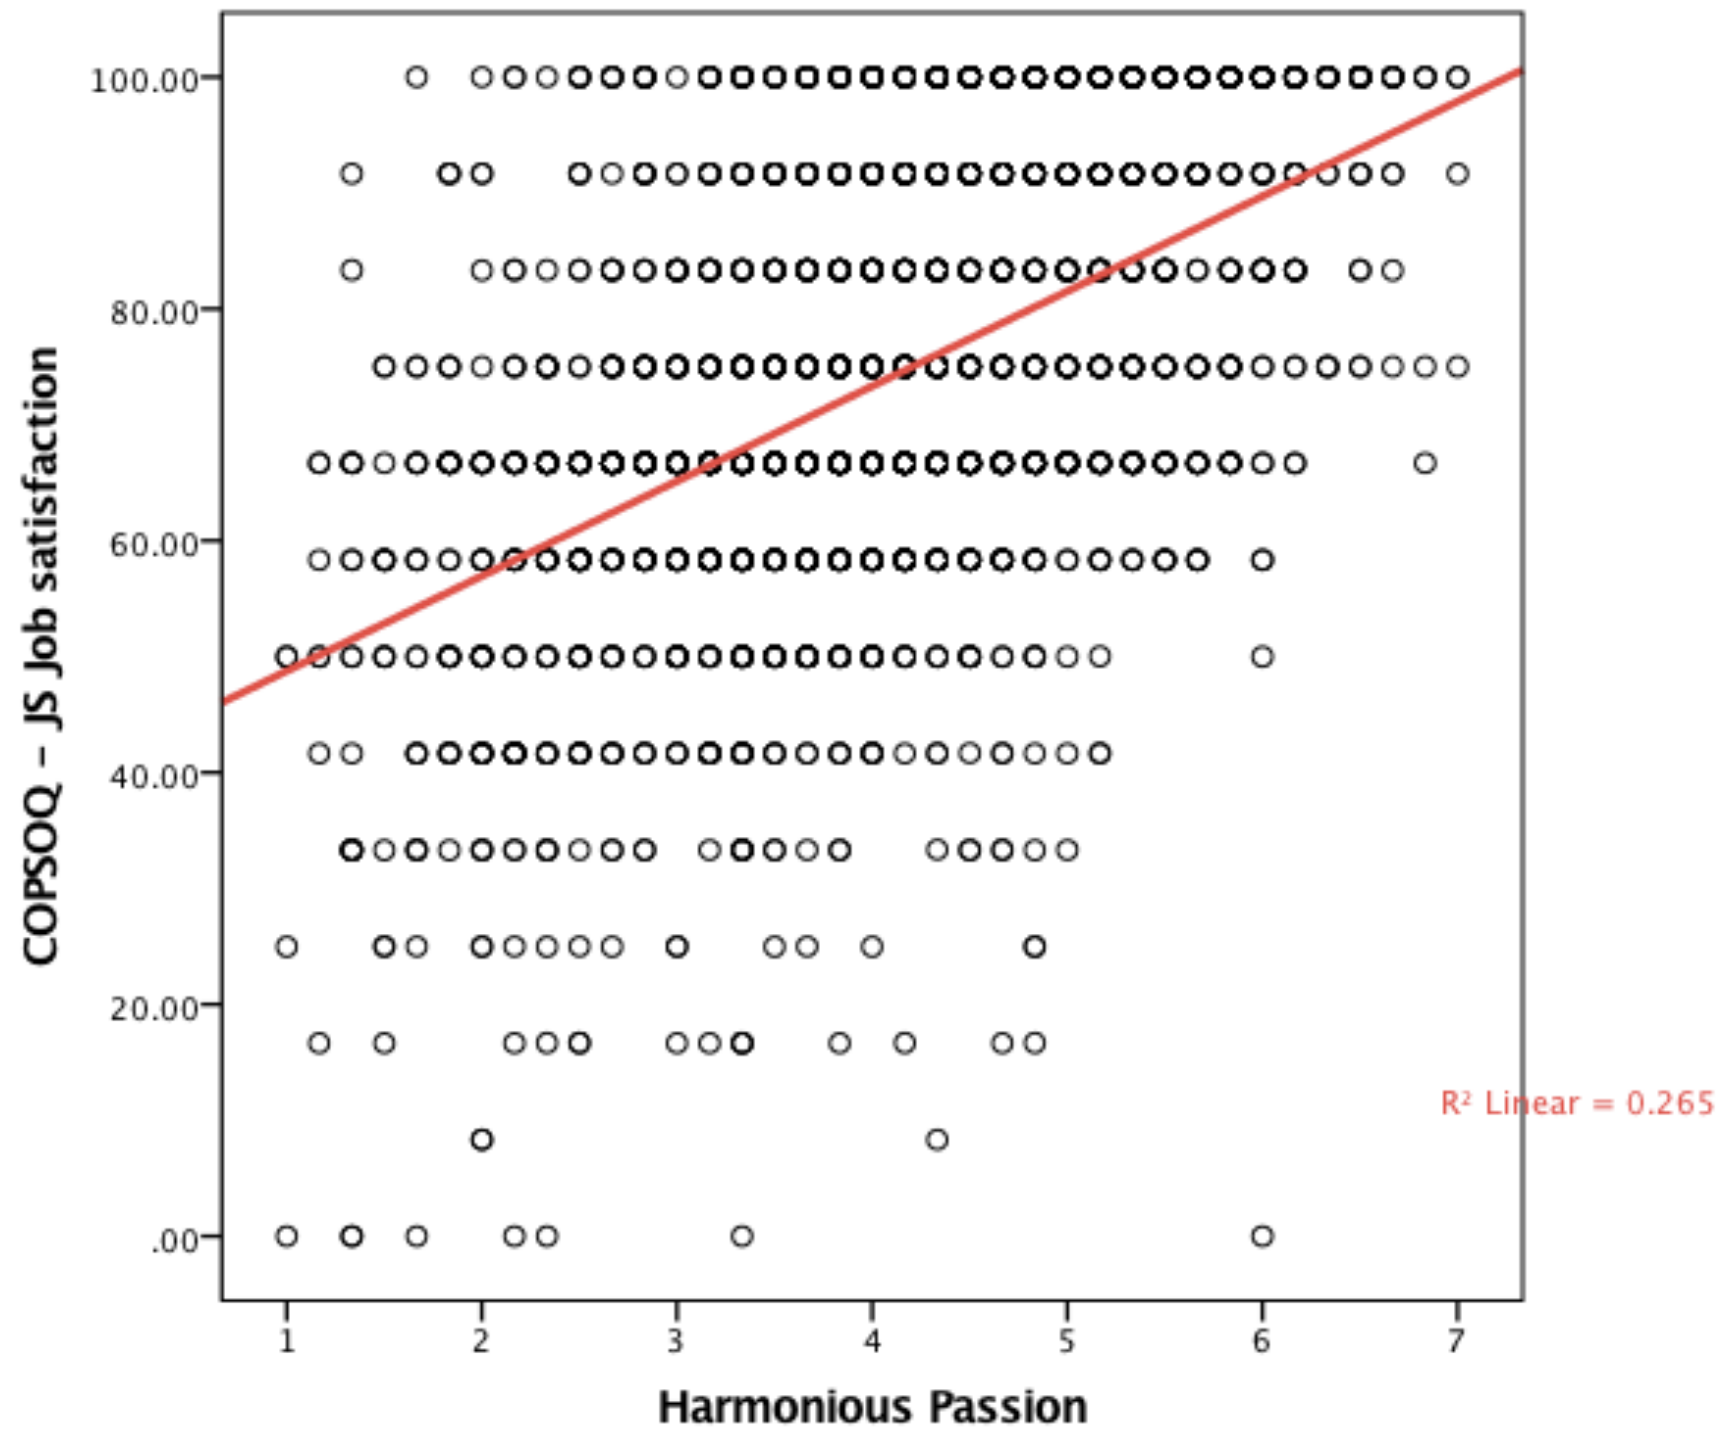

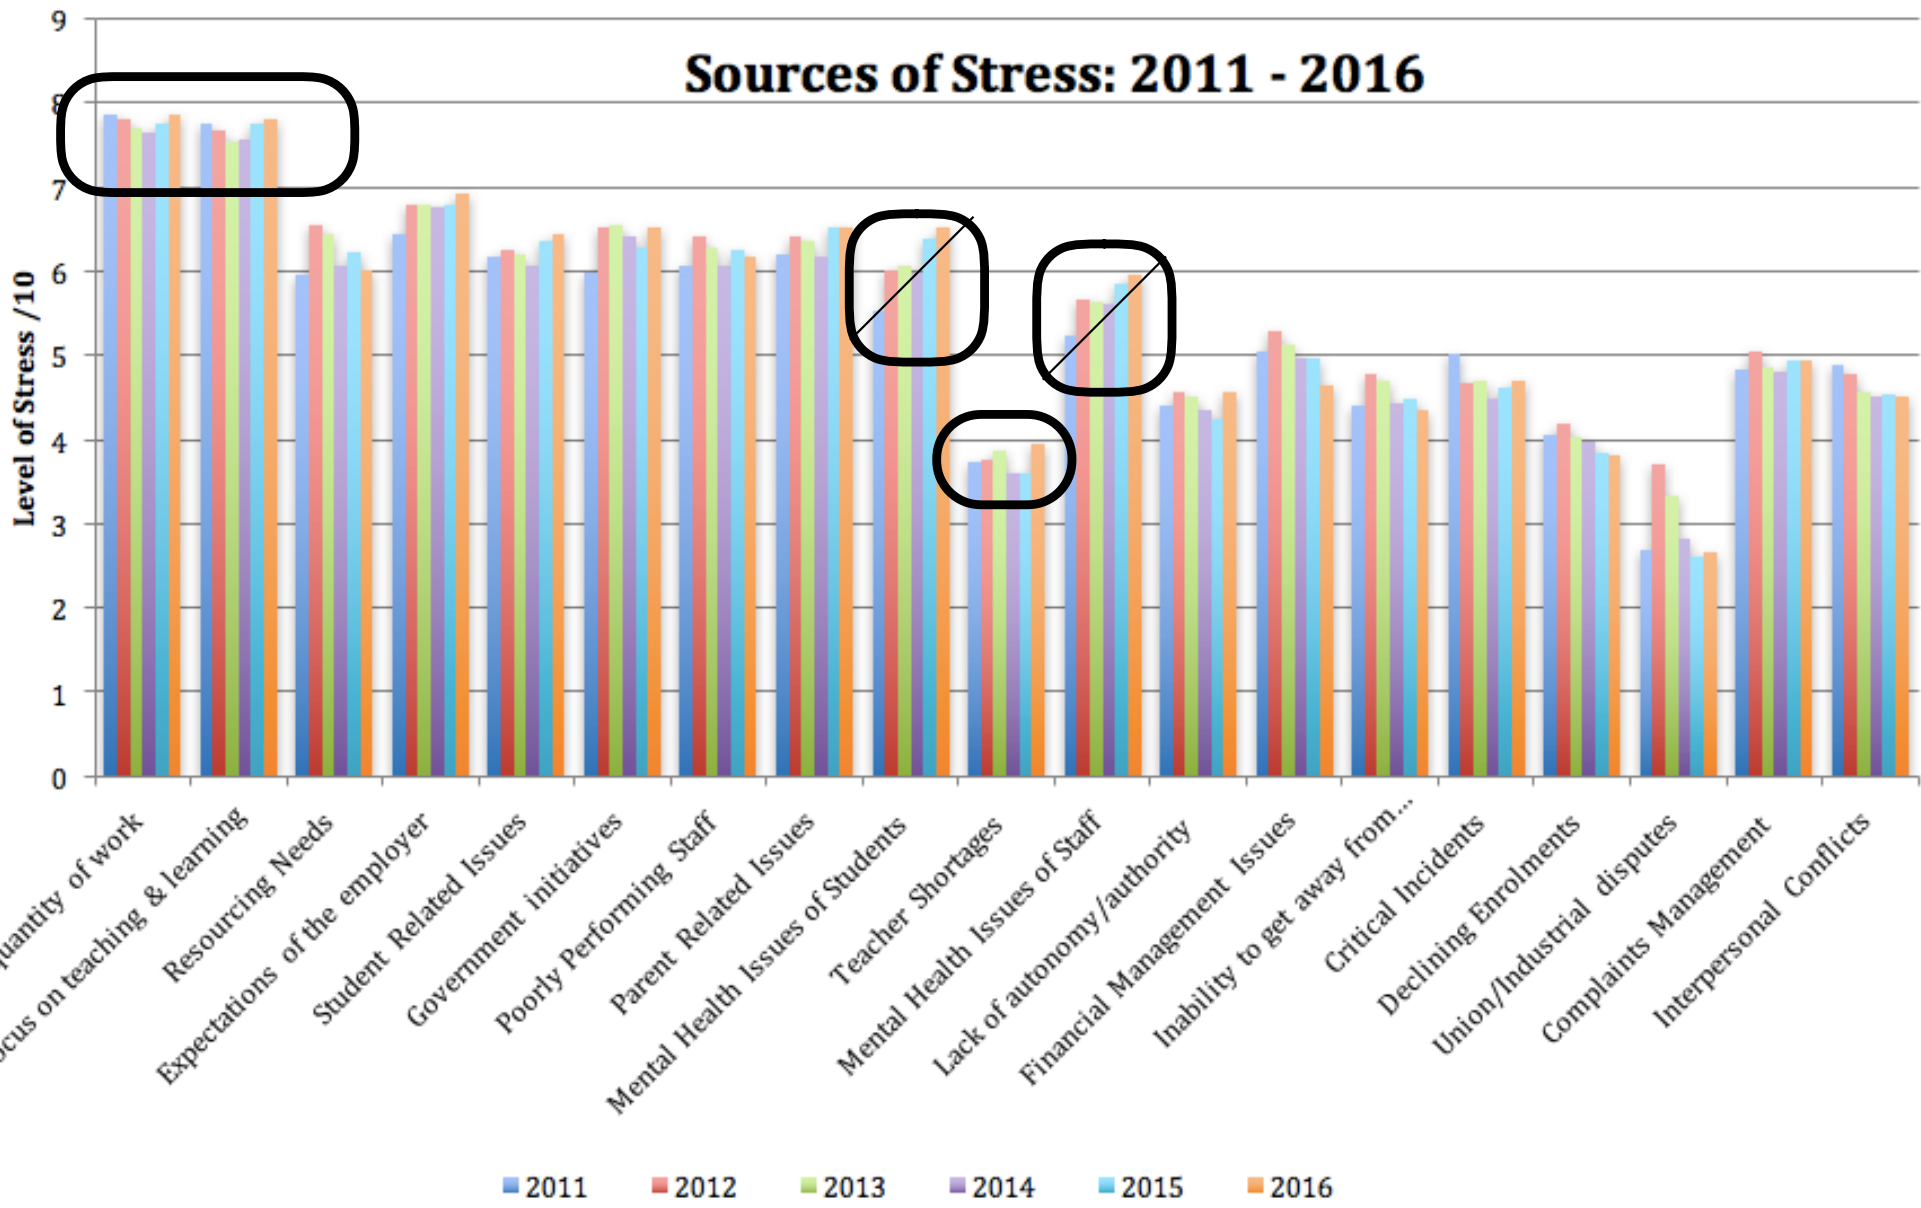

Sources of Stress: 2011 - 2016

Sources of Stress 2016

Sources of Support 2011-2016

Social Capital

COPSOQ-II scales

Trust in Management

(also known as Vertical Trust)

Social Community at Work

(also known as Horizontal Trust)

Justice

Social Capital 2011-2016

Summary

Job Demands have remained very high or increased slightly during the last 6 years.

Sources of Stress Large increases: Mental Health Issues of both staff and students.

Job Resources increases job satisfaction, influence, possibilities for development, variation, meaning of work, commitment to the workplace, and self-efficacy

Positive Trends reduction in work hours during holidays

Negative Trends Offensive Behaviour Rates, Decreasing Social support, Decreasing Social Capital

Health and Wellbeing Outcomes Self-rated health, a very robust measure of future health, in decline over time is of great concern

Recommendations

1. Improving the wellbeing of principals and deputy/assistant principals through Professional Support
2. Professional Learning
3. Review the work practices of Principals and deputy/assistant principals in light of the Job Demands-Resources Model of organizational health
4. Address Bullying and Violence
